

## Magnet School Parent Choice Application 2012-2013 School Year

Recent legislation passed by the Connecticut General Assembly (Sec. 42, P.A. 07-3) provides the possibility for Interdistrict Magnet School operators that have unused seats to enroll interested students directly into their program. Preference is given to a student from a district that is not already participating in the Interdistrict Magnet School. Area Cooperative Educational Services (ACES) is accepting applications for a lottery for available seats in two of our magnet schools. They are: Thomas Edison Middle School (grades 6-8) in Meriden, and Wintergreen Interdistrict Magnet School (grades K-8) in Hamden.

If you would like to apply for admission to either of these schools (program descriptions are on the reverse side of this form), please complete this application and return it to our Magnet School Parent Choice office.

**Students must be registered in your home school district.**

**For this program, parents must provide transportation for children.**

(Please answer all questions and please print.)

## THOMAS EDISON MIDDLE SCHOOL (TEMS)

TEMS is a school of 800 students, grades 6-8, with a focus on science, mathematics and technology. The curriculum model allows both students and teachers to be inquiry-based learners and instructors in a constructivist setting. Technology is an integral part of every aspect of the school. TEMS is dedicated to fostering an educational atmosphere that connects with a diverse community of learners where each member is recognized as an important piece of the whole.

## WINTERGREEN INTERDISTRICT MAGNET SCHOOL (WIMS)

The Wintergreen Interdistrict Magnet School (WIMS) provides a comprehensive liberal arts education rooted in the arts and humanities and supported by the integration of technology into all facets of learning. The school encourages the development of life-long learners through membership in a learning community which nurtures strengths, celebrates diversity, and encourages model citizenship. Wintergreen delivers a challenging, well balanced academic course of study in a technology-rich environment.
