Our bottom line projections reflect a surplus for October as we receive enrollment data to estimate revenues and expenses for FY22 more precisely. October invoices are being processed for tuition and transportation and showing promising results as we look ahead. We are managing our expenditures conservatively by paying close attention to the enrollment trends. We are prepared to adjust the spending if needed to ensure a positive outcome for the year-end. Our emphasis is to continue to monitor student enrollment numbers and requests for services better to estimate the cash position of the agency for FY22.
