

March 27, 2020

Dear Parents and Guardians,

ACES has developed Continued Educational Opportunity plans that will provide academic and modified therapeutic support to your child during this extended school closure due to the Covid-19 pandemic. The full implementation of the plan will begin on April 1st, 2020, and continue as long as schools are closed. Attached is the plan for Village School and our EIBI Program.

At this time, Governor Lamont has closed schools until April 20, 2020. Please note that ACES will continue to honor the April Break period from Friday, April 10, 2020 thru Friday, April 17, 2020. Our final day of school is set for June 23, 2020.

A parent survey assessment was sent via Parent Square on Wednesday, March 25, 2020. This is the first stage of our plan. If you have not completed the survey yet we are asking that you do so each teacher can provide the required support. As part of our plan you can expect regular check-in calls, emails, and Parent Square messages from your child's educational team so we will need a reliable method for contacting you. If you need to update your information please email cdeleo@aces.org (Celeste DeLeo) for assistance in doing this.

We ask that you understand that these are initial plans. Please be patient with us as we work with you to figure out the best way to support you and your child during this uncertain time. We will need your feedback and support to make this work. We will all get better at this together.

Thank you in advance and stay well,

Virginia Tagliatela
