

New Email for Inquiries and Concerns

ACES has implemented a **Safety Communications Team** to respond to all incoming inquiries from families, staff, and contributing stakeholders. As the impact of COVID-19 has placed us safely to the confines of our homes, ACES is still operational to best support the functionality of our schools, programs, and services.

We have created an email address to manage inquiries for responsive communications. This email is monitored consistently to direct your questions or concerns to the proper department or office at ACES that can answer your inquiry swiftly and accurately. In regards to safety and health; learning, access and support; and general questions regarding COVID-19 and advisory, please use safety@aces.org. Please provide contact information in your message so that the Safety Communications Team can get back to you.

Thank you for your continued support and cooperation.
